

CAMPING LE RANCH

SUSTAINABLE DEVELOPMENT, ECO-CITIZENSHIP

Our campsite is involved to Sustainable Development. We have put in place a comprehensive approach to reduce our water and energy consumptions and to limit the impact of the campsite on the nature. All the team (permanent and seasonal staff) adhere to a charter to raise awareness of eco-gestures related to their professional activities and awareness of disabilities and its four major deficiencies, for better support.

Our eco-responsible commitments:

- Sanitary facilities, public water points and rental buildings are equipped with water-saving appliances. A sanitary facility is available for guests with reduced mobility.
- Day / night sensors for illuminating the aisles of the campsite.
- All rentals, sanitaries and public lighting are equipped with low energy bulbs.
- The electrical equipment (refrigerator, oven, etc.) of the rentals are classified in economic category A or A +.
- The campsite has an area dedicated to selective sorting and composting.
- The cleaning products we use are certified ecologically (European Ecolabel).
- Reuse of used paper as a draft.
- We encourage exchanges by e-mail.
- Plants watered with rain water
- Vehicles are prohibited from 23H to 7H00 in the campsite.
- Recovery of batteries at the reception desk.
- We seek your input and suggestions to improve our environmental approach.
- The campsite Le Ranch is labeled Camping Qualité. This charter of national quality brings together the campsites subject to strict and precise commitments as well as regular checks on more than 600 criteria to ensure a better stay.

What customers can do to participate in the sustainable development process:

- Limit water and energy consumption by switching off electrical appliances and lights as soon as they are used. Shut off water and unplug equipment during prolonged absence.
- Participate in selective sorting with containers provided for this purpose on the side of the road.
- Place the batteries in the collector provided in the reception desk.

We put brochures and "Mémoires" at customers' disposal to accompany them in their eco-responsible approach.
